Recalibrate
Summit 2025

Summit Theme:
Do it scared!

EXCITING DETAILS AND REGISTRATION INFORMATION TO COME.

The unknown and unfamiliar can be scary places *until* they take us on a journey that introduces us to a bodacious version of ourselves we did not know was chilling underneath our skin.

If perhaps you have been aimlessly wandering around in the maze of purposelessness, lovelessness, or loneliness, but feel called to someplace you've never been to do something you've never done, **Recalibrate Summit 2025** is the gathering for you.

This incredible summit is where we give ourselves permission - guilt free - to accept the universe's invitation to take a new route, to make the U-turn, to get off on the mystery ramp.

April 2025 will be your turn to say YES as we convene some of the country's foremost inspiring voices to showcase **the goodness of recalibration with their life changing work.**
